

INJECTKIT

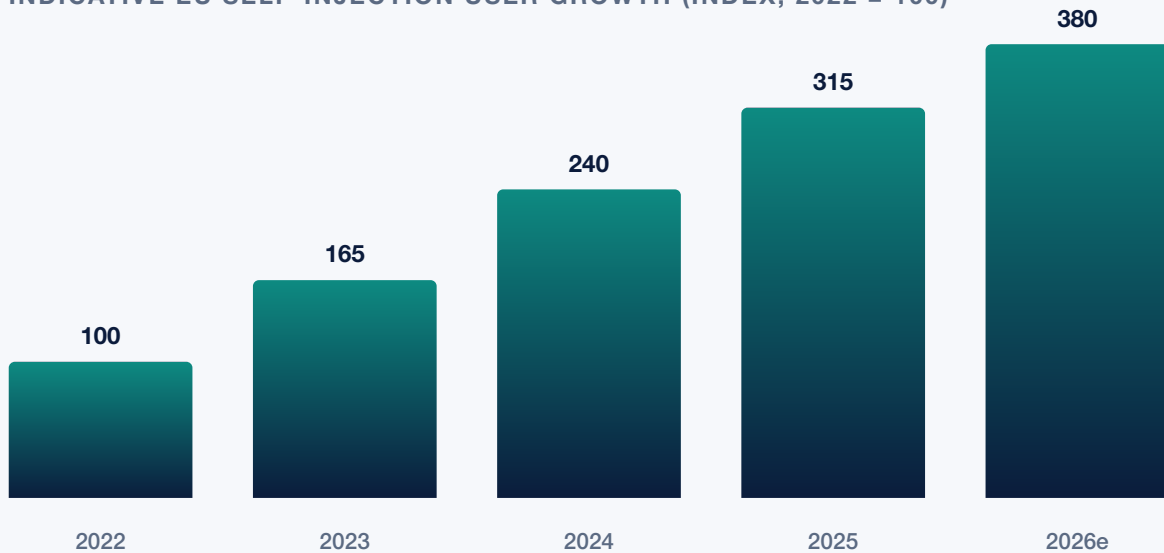

InjectKit for Partners

EU-native CE-marked injection supply fulfilment for peptide, GLP-1, HRT, and wellness brands.

EU self-injection supply demand is compounding; supply is fragmenting.

GLP-1 patients, peptide buyers, TRT clinics, and longevity programs need the same 5-SKU consumable basket — syringes, IM needles, bac water, alcohol pads, sharps. Today those customers assemble it from Amazon listings, pharmacy counters, and grey-market vendors. We believe the basket belongs with one EU fulfilment partner.

INDICATIVE EU SELF-INJECTION USER GROWTH (INDEX, 2022 = 100)

Combined EU adult users across GLP-1 weight-loss, peptide self-administration, TRT/HRT, and fertility stimulation. Sources: company estimates synthesized from EMA, IQVIA, and national prescribing data.

Our thesis: the brand that fulfils the supply basket for these users wins the second purchase, the subscription, and the review. Partner-side: you keep the customer, we handle the consumables.

meeco Servicios Globales S.L. — CE-marked injection supplies, shipped from Spain.

Launched April 2026. Supplies only — never peptides, medications, or pharmacy-regulated SKUs. Product scope is deliberately narrow: empty vessels, sharps, disinfectants, disposal.

LEGAL ENTITY

meeco Servicios Globales S.L.
CIF B42774703 · Alicante, Spain
Director: Angel Trutschler

REGULATORY

CE-marked Class I and IIa medical devices. EU MDR 2017/745 aligned. ISO 13485 alignment in progress; full certification on 18-month roadmap.

STOREFRONTS

Pick the tier that matches your volume and ops capacity.

TIER	DISCOUNT	MOQ / MONTH	MECHANIC	EXAMPLE FIT
Affiliate	10% revshare 60-day cookie	None	URL link, tracked	Small creators, referral-only
Bronze	15% off + 5% revshare	€500	Co-brand page + insert card	Peptide vendors, mid-tier creators
Silver	25% off	€2,000	API dropship	TRT clinics, subscription brands
Gold	35% off	€5,000	Wholesale, signed MSA	Established vendors at scale
Private Label	40% off + €2,000 setup	€8,000 2,000-unit MOQ	Custom packaging	Large brands with own SKU

All tiers operate under a standard EU distribution agreement aligned with MDR Art. 14. Payment terms: prepaid under Silver; NET-15 under Gold and Private Label against signed MSA and trade-references. Pricing is net of VAT; intra-EU B2B reverse-charge where applicable.

Eight ways to plug InjectKit into your stack.

A · AFFILIATE LINK

Tracked URL

Unique referral link with 60-day cookie. Lowest lift: paste once, revshare monthly. No inventory, no support burden.

B · POST-PURCHASE EMAIL

Email insert

Branded block dropped into your post-purchase sequence. Customer journey stays with you; supplies flow comes from us.

C · PHYSICAL INSERT

Insert card in your shipments

Card printed with your discount code and QR. We supply the cards; you slip them into outgoing parcels. Works at any Bronze+ tier.

D · CO-BRANDED PAGE

injectkit.com/partners/{vendor}

Dedicated landing with your logo, language, SKU shortlist, and coded discount. Indexed, trackable, conversion-ready.

E · DEEP-LINK CHECKOUT

Prefilled cart URL

Build a checkout link with the basket pre-populated. One click from your thank-you page or CRM to our paid checkout.

F · WHOLESALE DROPSHIP

API fulfilment

Your storefront displays our SKUs. Orders POST to our API. We pick, pack, and ship direct to your customer in plain packaging.

G · WHITE-LABEL

Your packaging

Box, label, and insert carry your brand. We remain the legal manufacturer unless an explicit OEM agreement is signed (MDR Art. 16).

H · CONSIGNED INVENTORY

Stock in your 3PL

We place agreed SKU quantities in your fulfilment warehouse. You pick-pack locally; we invoice on depletion. Gold tier only.

Regulatory posture your compliance team can diligence in one page.

Medical devices

Every SKU is CE-marked as a Class I or Class IIa medical device, sourced from MDR 2017/745 compliant manufacturers.

- Technical documentation on file per manufacturer
- UDI assignment tracked ahead of EUDAMED registration deadline (28 May 2026)
- Batch-level traceability at pick-pack

Quality system

ISO 13485 alignment statement today; full certification targeted within 18 months of launch.

- Documented distributor duties under MDR Art. 14 and Art. 25
- Complaint handling & FSCA process in place
- Cold-chain and temperature control for bac-water and FRIO lines

Data & privacy

GDPR-compliant by construction. Customer data held in Supabase eu-north-1 with row-level security.

- Named DPO reachable at privacy@injectkit.com
- Data processing addendum available for Silver+ partners
- Revolut Merchant handles PCI-DSS scope; we never see card data

Transparency commitment. We will publish an independent Eurofins lab report on syringe sterility, pyrogen testing, and dimensional compliance once produced (six-week turnaround after order is placed). Partners will receive the report directly on release so your own compliance file is complete.

Want to talk?

A 30-minute discovery call is enough to scope a fit. Bring the questions, we bring the spreadsheet.

What we'll need from you to move forward

1. Company name and EU VAT identifier
2. Monthly volume estimate (units or euros)
3. Target integration model (affiliate, co-brand, dropship, private-label)
4. Markets you currently ship to, and languages served
5. SKU interest — which part of the catalog is the priority
